INTRODUCTION WELCOME

INTRODUCTION

I am a Design Consultant located in Peachtree City, GA. I have raised 7 children here in Georgia, and along with them, interior design has been my passion. I love taking a space and transforming it into something special. Seeing a vision come to life, brings me so much joy. I specialize in collective style, where I take an eclectic variety of aesthetics and pull them together to create a timeless, beautiful, and harmonious scheme with balance and rhythm. Over the years, I have designed and renovated bedrooms, bathrooms, living spaces, and entire homes. Sourcing unique pieces is my specialty.

WHY DID I START?

I started in design because I wanted to help people transform their homes and businesses into environments that inspire and bring comfort. It's fulfilling to see a vision come to life and make a real difference in how people experience their surroundings.

EXPERIENCE, TRAINING & SKILLSET

Starting at the Art Institute of Atlanta studying to be an interior designer, life took its turn with marriage and kids. Still seeking this dream as a designer, I went on to complete the PCE and EPS courses through The Decorologist. I then continued on to become a certified design consultant and home stager with RESA. Through all of these courses I was trained with paint color consulting, design, home staging, as well as the psychology behind it all. Over the years I have designed several home and bath renovations and have many years of experience overseeing and working with contractors and redesign. I also have been managing my Boutique at Circa Antiques Marketplace for several years, where I have an eclectic collection of 18th and 19th century European antiques, art, and home accessories that have been carefully curated to provide customers with the highest quality pieces.
